

Andy Mayerl "Mirror'in" project info

*"Andy Mayerl's bass playing is solid and malleable ..."
(magazine nordic sounds, denmark)*

Mirror'in – titel of **Andy Mayerl's debut CD** as a composer and bandleader – is also the name of his live project.

In the style of **NuJazz**, Mirror'in is deliberately set **between** the genres of **jazz and pop**. Modern rhythmic and formal concepts meet **traditional song material**.

Its instrumentation uses four significant basic elements: **strings, vocals, jazz band and electronics**.

The arrangement confronts **acoustic instruments, electronic sounds** and **drum'n'bass rhythms**.

„acoustic songs between jazz`n`pop“
„vocals facing drum´n´bass“
„strings vs. electronics“
